The impression cautiously suggested by the Askatb or some weeks past, that the continuous decline in the prices of properties marketable at the Stock Ex-hange and been arrested, seems in the light of facts shange and been arrested, seems in the light of lattice be borne out. The spasm of yesterday, which threatened an ill wind to holders, has been more than cured to-day by the lozenge of a better feeling, and fatulency has been converted into firmness.

The turn upward in the coal stocks was a potent in-The turn upward in the coal stocks was a potent ingredient in the curative process, and was to a great degree atimulated by the medicament issued from the office of John Taylor Johnson, ex-President of the Central Railroad Company of New Jersey, in the shape of a circular. Mr. Johnson, naturally, does not like to see his stock go down, and casts about for a reason plausible enough to satisfy his stockholders, and finds it in circulars, pamphiest of the most unprincipled character, "which have backed up a supposititious raid."

A little further on, however, Mr. Johnson tacitly ad-This interest on nowers at your solution that the decline in the stock is not wholly due to the machinations of rascally brokers, for he confesses that the company is making no money and that the fividend last declared was borrowed from the surplus

the Centennial craze, and has imagined that because a big show was in process at Philadelphia every visitor would, with his admission ticket, purchase a ton of soal to warm up his enthusiasm to a belling point. How the Exhibition was to increase the sales of the

pany's coal in any other way it is difficult to see.

Johnson further states that "the transportation of
has been limited to less than half of what the reons have the power to produce, and it is evident that at the production can be largely increased the profits the business must be seriously impaired." So it seems that the stock may have declined in value seems that the stock may have declined in value simply because holders have sold out a property which they believed was capable of paying a dividend of ten por cent per annum, and which they now find out can pay them nothing at all, though Mr. Johnson, to the contrary, asserts that the '-movement in the stock has been entirely a bear movement," with the object of frightening

bear movement," with the object of frightening holders out of their property.

How an increased production and addition to a stock on hand arready a glut in the market and unsalable is to improve the condition of things, Mr. Johnson may know, but declines to tell.

The further opinion that the difficulty is a temporary sne, which will be righted in due time, is sensible enough, and it is to this view may be traced the sharp recovery of the stock to 78½ to-day.

The market, hesitating upon the edge of confidence, requires but little to make it brighten up, and the fillip given to it by the improvement in the anthractic properties quickly showed itself in Lake Shore and Western stocks, and imparted a feeling of confidence to the whole list

To this was added a report that the representatives of the great railroads, now at loggerhoads, were in town, and it was argued that their presence could an but one thing, and that a truce or cessation of hos ios in the ca amitles was now pending.

Apart from other con-iderations it cannot be denied that a feeling atrongly builtsh, based upon a more favorable outlook, is gradually making it way, and is shown in the quick recovery and steady tone of the market. The droop in quotations, which occurred about now, was recovered later on, and the best figures of the day ruled at gong-sound, while private sales made a ter adjournment at prices higher than those quoted on the official lists.

Currency.

The rumor that the railway war has ceased or is

about to cease, which was freely circulated in stock circles to-day, is without foundation.

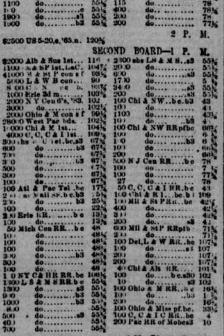

The premium on silver is down to par a 1 per cent, in consequence of the belief that the Ten Million Le-

gal Tender Silver bill will become a law.

DRY DOCK SAVINGS BANK.

The run on the Dry Dock Savings Bank was continued yesterday, and the crowd of anxious people waiting to draw their little savings was even greater than on the previous day. The sidewalks were thronged long before the doors were opened, and as soon as they were thrown open a rush was made for the paying telo'clock till one, and three policemen were required to keep the excited people in order. Several of those wha caffed, however, fluding their money was promptly forthcoming, went away without drawing it, and some even made deposits to mark their unabaken confidence in the bank. The greater part of the crowd were Ger-mans and Habrays, and it is said that the run orders.

mans and Hebrews, and it is said that the run originated at a meeting of a German lodge. At the time the bank closed at three o'clock there were about 300 persons inside, and a great number were still on the sidewalk. Up to that hour about \$70,000 had been withdrawn.

Mr. Mills, the President, stated that the bank would be well able to stand the run, and that it could, if necessary, pay every ucilar of deposits. He said that there were n grounds for the panic and compared it to a groundless cry of fire in a crowded theatre. The bank officials, he said, are utterly at less for a reason for it, unless it can be found in the fact that the poor and non-English speaking customers of the institution had confounded it with the Mechanics and Traders' Bank, a referee for which had been appointed by the courts. The bank has in bonds and mortgages, \$2,335,950; in bonds of cities of the State of New York, \$1,304,000; in New York (it) bonds, \$4,427,000; government bonds, \$2,303,000, and in real estate, \$220,000. These securities can readily be resilized upon a bans of at least ten per cent above par. If necessary \$7,000,000 can be put at command to meet any and all demands.

The tank officials express themselves as very confident that as soon as the people become convinced that there is no real cause for alarm the run will cease.

THE EMPRESS EUGENIE'S LACES.

News has been received at the Custom House from News has been received at the Custom House from the United States District Attorney's office that the ecclebrated sunggled lace goods which were made for Eugénie, ex-Empress of the French, are to be shortly sold for government account at United States Marshal's auction. They were soized in May, 1875, by Capiain Brackett, Special Treasury Agent, who followed their owner, a Mr. Hoorix, of Brusseis, from this city to Philadeiphia, thence to Wilmington, Del., and thence to Washington, where they were seized as contraband. The goods were exhibited at the last Paris Exhibition. The late Mr. A. P. Stewart expressed a wish to be present at their sale. Mr. Grant, of the firm of Grant & Muller, a well known Custom House ince expert, was asked to place a value upon the laces, and said he could not. A dress and shawl have been restored to Mr. Hoorix upon his representation that said goods belonged to his write. There romain some eighteen or twenty pieces to be discossed of and their sale promises to be a most interesting affair in spite of hard times.

BROOKLYN'S NEW CITY BUILDING.

Yesterday forenoon ground was broken on the site set apart by the Common Council for the erection of a new municipal building, on the west side of the Kings County Court House. At eleven o'clock a large new municipal building, on the west side of the Kings County Court House. At eleven o'clock a large assemblage of citizons and officials gathered on Joraismon street, in the vicinity of the ground selected, and Mayor Schroeder made his appearance, shovel in hand, and removed a small quantity of earth amid the cheers of the spectators. President French, of the Board of Aidermen, followed the example, after which several addresses were made. The Mayor said some iorty years ago the corner stone was laid for the City Hall, it was then intended to erect a building which should cover the whole of City Hall, it was then intended to erect a building which should cover the whole of City Hall square; but? the panic of 1837 put a stop to the building for the time being, and the project similarly the building as originally intended would be what a now wanted for room and convenience. The practical mechanics who are members of the Aidermanic Committee on Jusiding will see to it, it is Honor said, "that this is as housest a job as was ever put up in the city of theories," It is a fortunate time, and provides work for many unemployed mechanics and laborers in the city.

Aiderman Fisher then spoke, reviewing the history of the City Hall, which cost, with all its furniture, \$250,000. The new Court House cost but \$551,769.28. It cannot be said that Brookiya his extravagant in her public buildings. Corporation Counsel De Witt, Supervisor Clark and Alderman Murtha also made shore the first and will have a troat on Joraisemon street of 100 feet. It is to be flushed by May 1, 1877.
